

Perfect Vision Gains Top Spot

Perfect Vision Eye Hospital, the eye care division of Perfect Wellness Pvt. Ltd. was recently awarded the number one ranking by Times Research for its outstanding services. The brainchild of a dynamic young entrepreneur, Ankit Agarwal, MD & CEO of the parent company, Fx Group, this venture was built upon the foundation of excellence, whether it was in the expertise of medical care, the latest equipment or the most committed team of doctors as well as support staff. It is the unfailingly high standards of warm and empathetic customer service that has kept more than half a lakh patrons coming back and placing their trust in us, time and again.

Six years have flown by in the pursuit of perfection. However, not one to rest upon its laurels, Perfect Vision now brings to you a host of upgraded facilities. There is now a full-fledged team and infrastructure in place for Retina Services, 6 days a week. This means you do not have to wait for a Retina Specialist to put your anxieties to rest-everything can be treated immediately in the same premises. Apart from this, the sheer range of solutions for refractive errors, i.e. getting rid of glasses is vast- from Contact Lenses (Soft, Toric and Semisoft) to Laser Refractive Surgery (LASIK) on to the very latest Implantable Collamer Lens (ICL).

The expertise quotient of the hospital has been further enhanced by the addition of a surgeon and academician of immense repute, Dr. Ashu Agarwal. As Head of Ophthalmology, Dr. Agarwal is equally passionate about delivering the best and most ethical medical practices to the community.

Encouraged by the success of its first healthcare division, and with the intent to expand this range of services, Perfect Wellness has recently opened its doors in Delhi with a fusion store that brings healthcare and retail together under one roof. Perfect Dental is headed by Dr. Kapil Gandhi, Head of Dentistry and Perfect Vision Opticals is backed by some solid technical finesse under the guidance of Mr. Rajesh Bhatia.

Perfect Wellness has always been conscious of its corporate social responsibility seriously. The company has conducted several free of charge Eye Care Camps since its inception. A free Cataract Screening Camp, a camp for Diabetics with a retina evaluation and a camp specifically for raising the awareness level of the public at large towards Eye Care, are all initiatives that have benefited thousands of patrons over the last six years, with the same quality of consultation or infrastructure that is found on our premises when business is as usual. More such plans are already in the pipeline, both for the Eye Care Division as well as the Dental Care unit.

Expressing his gratitude to patrons and joy upon the completion of six years of Perfect Vision Eye Hospital, Ankit Agarwal maintains that all the forthcoming ventures of Perfect Wellness would be built around the cornerstones of Expertise, Trust, Warmth and Range.
